

Dear General Assembly

My name is Signe and I wish to put forward my candidacy for member of the national board.

I have a great passion for the European Union and for European Youth. I am in favour of more European cooperation in these dire times and have an interest in politics, but my main interest is in improving the organisation of European Youth. European Youth is a great organisation that has seen spectacular growth in both membership and professionalism. We now have employees and a secure financial situation through both DUF and Europa Nævnet. I want to thank the previous board members and local sections for doing a great job getting us there.

However, I know I can contribute to make it even better. I want to see **more organized member activities** and **improved communications between the national board and local boards**.

I was a part of the team that planned the first summer camp. I was a brand new member and was faced with the challenges of planning 4 days of activities, meals and structure for 30 people during the hottest summer in decades. It was hard work, but I got a thrill from doing the job and seeing people enjoying it. Then I applied for arranging our next summer camp in collaboration with the Norwegian European Youth, and this time we're taking it to the next level with 100 people. It's not an easy job, but the planning group is working extremely hard on making it the best possible experience for everyone attending. In general, I believe that having more of these activities and improving the quality of these will be of great advantage to European Youth.

I also want to improve the communication between the national board and the local sections. I believe it's important for the local sections to know in which direction the executive committee is steering the ship. This particular communication can be improved upon by the new executive committee, which I hope to become a part of.

Why should you vote for me? Here's what I can bring to the table.

- If you elect me, supporting the Presidency and General Secretary with national events will be my primary focus.
- I know my fair share of photo editing and I am currently working on creating PowerPoint and Word templates for the organisation. I can apply that to creating streamlined merchandise for our entire organisation.
- I have experience with using Nævnsmidler responsibly.
- I have experience from the Copenhagen local section (EUK) where I have been a member of the board for 6 months and an active member for a year.
- In EUK I have helped create and chaired our Social Commission, which has planned a number of successful events these past 6 months.
- I'm a med student, so I can fix hangovers.

I hope for your vote!

Signe Carvallo
