

I hereby announce that I will rerun for the position of Political Vice President!

My primary focus the last year has been on our EP19-campaign!

After many long and productive meetings, we have come up with over 70 EP-related events and school visits in our local sections! This is impressive, and I look forward to strengthening the cooperation between the local sections campaign-volunteers. I look forward to seeing our members on the streets during the spring and early summer promoting the values that represent us and the Union the we love so much.

I have also spent countless hours co-managing our national organization. During this last year we have significantly increased the number of activities for our members. I look forward to a lot more of these types of activities that empower our members.

One of the biggest pleasures of being part of European Youth is hearing how much our members gain from this organization, whether if its new friends or new skills. I hope that we can offer even more of these types of events for our members. The skills and friendships that our members acquire during their time in European Youth will benefit them for the rest of their lives.

Of course, the position as Political Vice President also entails political work. I hope that we can set down some must-win political goals and communicate them to the general public. We have been quite fortunate this last year with the number of debates where either Andreas or I have participated.

I look forward to the next couple of months where we will engage the media even more.

I look forward to seeing you in Nyborg and answer any additional questions.

Best regards Johan Thostrup
