

Candidacy for international secretary

Maria Sophia Træholt

I am running for the position as international secretary!

My motivation behind my candidacy is that I am ambitious for the future of European Youth Denmark and I wish to put this ambition to use as a member of the national board.

I am a former board member of the local section in Aarhus, where I have enjoyed arranging events for our members, but now I also want to contribute to on a national level and all of our members.

In the fall of 2017, I was the group leader of the organization group who arranged the successful study trip to Brussels, where we visited the EU-Commission, Danish Energy and the EU Office of Zealand Denmark. We managed to arrange the whole trip in two months. One of the reasons the whole project became possible, was because of my stubbornness and personal impact, and because I know how to work under pressure.

I am also a former intern from Central Denmark EU Office in Brussels, where I have worked extensively with EU-funding (Erasmus+) and safeguarding the interest of the regions municipalities. Through my stay in Brussels, I have built up a large network, which will be an advantage as the position as international secretary.

As international secretary, I will ensure transparency, cohesion and structure in the organization.

I hope you will vote for me, you will not regret it 😊
